

2.4.3.1 Box plots

Solution: ① Calculation

$$Q_1 = 73$$

$$Q_2 = 76$$

$$Q_3 = 79$$

$$IQR = Q_3 - Q_1 = 79 - 73 = 6$$

$$Q_1 - 1.5 \times IQR = 73 - 1.5 \times 6 = 73 - 9 = 64$$

$$Q3 + 1.5 \times IQR = 79 + 1.5 \times 6 = 79 + 9 = 88$$
